In many places throughout the game, you will see small 'cracks,' or indentations in rock walls. If you use Secret Power in front of them, they will split open, and you can look inside. There are also large trees on some forested routes that can be used for a base as well, if you prefer to have a treetop home. Once you've found one you like, you can take it over and begin to decorate it! There is a character in the game who will come and check out your Secret Base after it is built, and it is also possible to exchange Secret Base info when you exchange records with your friends in the Pokémon Centers.

ODDS & ENDS

There are a few interesting tidbits that are still present in Ruby and Sapphire. It is still possible for your Pokémon to catch the Pokérus, a strange Pokémon virus that causes your Pokémon's statistics to grow more quickly from fighting wild battles. Pokémon will very rarely acquire the Pokérus, so keep an eye on their information, and check new Pokémon you capture!

There are also still 'shiny' Pokémon, from Gold and Silver. There is a very small chance that any Pokémon you capture in the wild will have an alternate color set than normal. This will quickly be apparent when you encounter one, so try your best to catch it!

Your Trainer Card will change colors throughout the game, based on your accomplishments as a Trainer. It starts out green, and you can achieve Copper, Silver, Gold, and possibly higher...

If you want to check up on your Pokédex, talk to Professor Birch. He'll also show up at the end of the game anytime you complete the Pokémon League, and take a look at it, before your Pokémon are ushered off to the Hall of Fame.

Sometimes, in the wild, you will hear the cry of a Pokémon that inhabits the area you are in. This is usually just a neat touch, but if you hear something really unusual, stick around and search, you might find a Pokémon you weren't expecting.

Your Pokénav keeps track of one of each type of Trainer you have encountered as you play the game, and if you check it from time to time, you will see a flashing indicator—this means that Trainer wants a rematch! Hunt them down and they'll happily challenge you to another battle.

And most importantly, have fun playing!

1 MOVING IN

Welcome to Hoenn, the new land of Pokémon Ruby and Sapphire! This is new to your character, too. Whether you're playing as a boy or a girl, you begin your adventure in the back of a moving van that's taking you and your family to Littleroot Town.

RUBY
VERSION

After hopping out of the moving van, go inside, then head up to your room and set the clock. If you want, you can also check out the map of Hoenn on the wall. This will give you an idea of the new world you'll be exploring soon. Once the clock is set, your mom will remind you to check your desk. Do so, and you'll find a **Potion** if you examine your computer and withdraw it from your item storage.

Once you're ready, head downstairs. Your mom alerts you to something on television involving your dad at Petalburg Gym. After watching this, she recommends you meet your new neighbor—a friend of your father's, Professor Birch. Go outside and visit his house (if you're playing as a boy, it'll be on the right; as a girl, it's on the left).

2 VISIT PROF. BIRCH'S HOUSE

Prof. Birch isn't in, but his wife welcomes you and says that their daughter (if you're playing a boy) or son (if you're playing a girl) is upstairs. Go up and talk to him or her, then leave the house and visit Prof. Birch's lab, just south of the two family homes.

3 VISIT PROF. BIRCH'S LAB

His assistant tells you that Prof. Birch prefers to do research in the field, so you should probably look for him on Route 101.

4 SAVE PROF. BIRCH

As soon as you step onto Route 101, you'll spot Prof. Birch being threatened by the local Pokémon wildlife. Quickly look in his backpack and grab one of the Poké Balls inside—this is your chance to choose your first Pokémon. Once you've picked the one you like, save the professor!

NOTE

You've got three choices here: Treecko (Grass), Torchic (Fire), or Mudkip (Water). The one you take is entirely up to your personal preference. All three Pokémon are stronger than the others you encounter early on, and any weaknesses you have can be made up for by the other Pokémon you will be capturing soon. Choose your favorite!

NOTE

Your first Pokémon battle occurs here. Use your basic attack, and you'll knock out the Poochyena that was chasing Prof. Birch in no time.

5

BACK AT THE LAB

Once you've saved Prof. Birch, return to the lab with him and have another talk. He'll direct you to Route 103-west, where his kid is collecting information on the local Pokémon. He wants you to say hello, so off you go.

NORTH TO OLDALE THROUGH ROUTE 101

You were here briefly before saving Prof. Birch, but now that you have a Pokémon of your own, you can challenge the Pokémon in the grass on Route 101 on your way north. Truck on through the grass and head toward Oldale.

OLDALE & ROUTE 103

1 NORTH TO ROUTE 103-WEST

Stop by the Pokémon Mart and the Pokémon Center if necessary, and then continue due north toward Route 103-west.

TIP

POKÉMON MART

ITEM	COST
Poke Ball	¥200
Potion	¥300
Antidote	¥100
Parlyz Heal	¥200
Awakening	¥250

11

NOTE

If you speak with the locals, one of them will give you a quick description of the local Pokémon Mart. In the future, you'll use the Pokémon Marts in each town to stock up on perishable items that you can use to help your Pokémon survive in the wild. Generally, it's wise to always carry some curative and restorative items. If you're having trouble with a certain fight (usually a gym leader), you can use items to provide that slight edge.

NOTE

Use the Pokémon Center here to fix up your Pokémon if they take any damage. You'll find Pokémon Centers scattered all over Hoenn, in every major city. When you're out in the wild, you'll need to use items to restore your Pokémon.

2 FIGHT MAY OR BRANDON

When you reach Route 103-west, check the northwest corner. You'll find Prof. Birch's kid waiting there, who will have the perfect counter for whichever Pokémon you selected from Prof. Birch's backpack. If you manage to beat him or her, you'll get a nice bit of experience and ¥300. After the fight, win or lose, head back to Prof. Birch's lab.

3 RECEIVE POKÉDEX

Prof. Birch will give you a shiny new Pokédex, and his kid will hand over a Poké Ball—now you can catch your own Pokémon and catalog them in the Pokédex.

4

GET RUNNING SHOES

When you head out again, your mom will stop you and give you a pair of **Running Shoes**. These shoes will allow you to run quickly around the world while you hold the B Button. Quite handy! Go north through Route 101 to Oldale again, using your new shoes to speed through the tall grass.

Ruby switched shoes with the **RUNNING SHOES**.

12

5

WEST OF OLDALE

Now you're finally ready to venture out further into the world and begin your quest to achieve all eight Gym Badges. Head west from Oldale to enter Route 102.

ROUTE 102

NOTE

Don't forget to visit the Pokémon Center to fix up your Pokémon if they get damaged. You may want to hunt in the grass at Routes 101 and 103 and catch a few Pokémon using your Poké Balls. You can buy some new ones at the Pokémon Mart in Oldale before you set out if you want, but you'll reach another town in just a few minutes.

1 TO TOWN

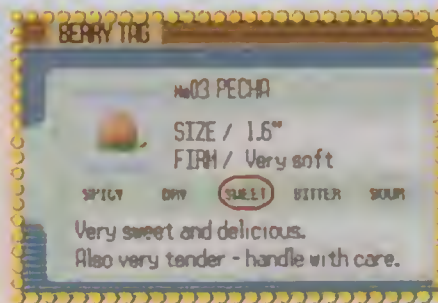

Route 102 is a simple grossy troil, leoding from Oldale in the east to tawn in the west. Explore the gross if you want to grob o few more Pakémon.

NOTE

You'll encounter your first Pakémon Trainers here. Challenge them to battles to give your new Pakémon valuable experience, and also to earn some cash. You can use your money at Pakémon Marts all over Hoenn. Keep in mind that if you don't feel like dueling other Pakémon Trainers, it is sometimes possible to avoid them—they'll only challenge you to a battle if they spot you.

2 BERRY TREES

There is one item of interest in Route 102—your first pair of Berry Trees. You can feed your Pokémon the various types of Berries that are scattered around the land to improve their attributes. You can also plant new Berry Trees in soft patches of soil. It takes several hours for the new trees to

grow, but it's worth it. After you pluck the Berries from these trees, replant one of each so that you can return and get more later.

NOTE

Berries can either be planted in Loamy Soil, where they will grow into new trees, or given to a Pokémon to hold. A Pokémon will use a Berry automatically in battle, and different Berries have different effects. You can also use Berries out of battle if necessary. Berries are a bit more flexible than regular items, because you must use items manually in battle, while Pokémon will make use of Berries automatically. On the other hand, stronger items tend to have more powerful effects than most Berries. Berries are free, however, as long as you're willing to take the time to grow them. You will eventually acquire a Watering Pail that will allow you to water your Berry Trees. Later, you'll also acquire an item that will allow you to mix Berries into candy for your Pokémon.

NOTE

You'll see several new goodies at this Pokémon Mart, beyond the usual curatives and restoratives. The various X enhancer items aren't very useful at this point in the game due to their cost, but they can come in handy later when you're loaded with money. These items provide a single bottle boost for one of your Pokémon, which is critical during difficult encounters. The Orange Mail is one of the many types of stationery scattered around Hoenn. When you send it along with a Pokémon to a friend, you can deliver a letter written up on your favorite kind of stationery. It's usually cheap, so pick some up if you like sharing Pokémon with friends.

1 YOUR FATHER'S GYM

Spend some time looking around here, because there's a fair amount to see—most notably, your father's gym! If you visit the gym, you'll meet your dad, and Wally will walk in. He wants to catch a Pokémon before he leaves for Verdanturf Town with his family. What follows is a brief tutorial on using Poké Balls to catch Pokémon. After that's done, your father tells you to train and grow stronger—he won't let you challenge him until you've collected four other Pokémon Gym Badges.

Your dad wants you to go to Rustboro City and challenge your first Gym Leader, Roxanne.

NOTE

If you walk west of your father's gym without entering, a local kid will stop you and point out the gym. Each gym is marked by the Poké Ball sign just outside. Remember, there are eight gyms in all, and you need to collect a Badge from each one. Every Badge you earn allows you to use a new HM (Hidden Machine) ability on your Pokémon, which enables you to explore more of the world. Ultimately, once you have collected all of the Badges, you can take on the Elite Four and prove your Pokémon mastery.

2 TRAINER PROFILE

Visit the Pokémon Center here and talk to a man in the upper-right corner of the first floor. He'll let you set your Pokémon Trainer profile, which is a collection of four different words or short phrases. Just come back and talk to him again anytime you want to change it. Is there a purpose to this? Perhaps entering a certain combination...

You'll need to go up through the forest and Route 104-north to reach Rustboro City, but before you do you, why not spend some time checking out the beach? See that boat docked by the pier? You'll be using that a little later to travel south from here.

2 HOUSE BY THE SHORE

There's a small cottage by the pier, the residence of one Mr. Briney. He's not in at the moment, but later he'll be the one that takes you south of Route 104. For now, you can head north into Petalburg Woods.

Before you proceed to the north, go slightly up, then east and back to the south. You'll wind up on a ledge on Route 104-south that you couldn't reach before. You'll find a Poké Ball there.

2 THROUGH THE WOODS

You cannot completely explore the woods just yet—you need the HM Cut to do so. You can, however, get through the western half to reach Route 104-north. Truck your way on up, bottling the Trainers and searching the grass for new Pokémon.

3 ENEMY TEAM REVEALED

About halfway through the forest, you'll encounter a Devon Researcher looking around for a Pokémon. After mumbling to himself for a moment, a member of your enemy team (Mogmo for Ruby, Aqua for Sapphire) will show up and threaten the researcher. You must protect him! Saving the researcher will earn you a **Great Ball**. You'll also learn that your enemy team is looking for something in Rustboro.

The girls inside will give you the **Wailmer Pail**, which you can use to water your Berry Trees. You'll also receive a **Rawst Berry**, and learn that there's a machine you can find that will allow you to mix Berries to create candy for your Pokémon. Right now, you can't actually buy anything here, but come back much later and you'll find an attendant here who will sell you goods.

NOTE

There's a young boy in front of the flower shop by the Loomy Soil who will give you **TM09, Bullet Seed**. Use this to teach your Pokémon a multishot attack. Remember, TMs can be used only once! You may wish to save your game, test out the TM in battle a few times, and then reset. Once you've got a feel for how a TM performs, you can keep it until you have decided on the Pokémon you will give the move to.

2 NORTH TO RUSTBORO

When you're done checking out the flower shop, go outside and look in the grass behind the store for a **Potion**. Water any Berries you planted in front of the shop, then head east and north to reach Rustboro. You'll bump into a few Trainers, but nothing too challenging.

3 DOUBLE TROUBLE

When you attempt to cross the bridge to reach Rustboro, you'll meet some twins, presenting the opportunity to try out your first Team Battle. Remember that the first Pokémon on your list and

1 AROUND TOWN

There's a lot to see and do here in Rustboro, including your first achievable Gym Badge. First, head to your left into the tall building. It's a Devon Corporation tower, and you can receive a **Premier Ball** on the second floor from a child. Stop by the Pokémon Mart if you need to stock up on items, and visit the Pokémon Center to heal your Pokémon. A kid to the left of the Pokémon Mart will mention that Mr. Briney likes to take walks occasionally in a nearby cave—you'll visit him soon.

2 CUTTER'S HOUSE

Visit the Cutter's house, just to the left of the Pokémon Center, and talk to him to receive **HM01**, Cut. After you acquire the Stone Badge of the gym here, you can then equip it on a Pokémon of your choice and reach some previously inaccessible areas (the ones you've missed so far have been the east side of Petalburg Woods, and a tree in the southeast corner of Route 104-north).

23

3 POKÉMON TRAINER'S SCHOOL

The Pokémon Trainer's school is just across the street and to the east of the Pokémon Center. Visit the school and talk to the teacher to receive a **Quick Claw**, an item that your Pokémon can hold. It will occasionally allow your Pokémon to go first in battle, even if it is slower than the opposing Pokémon.

NOTE

There are many held items in the world like the Quick Claw, with various types of effects. In some ways, they are similar to TMs, because you need to decide which Pokémon can make the best use of an item. However, they are superior to TMs in one way, since the choice isn't final. If you decide another Pokémon could use the item more effectively, or you find a better item for that Pokémon, you can simply swap the items around. Remember that it is also possible to trade Pokémon carrying items, if you want to share something with a friend, and that certain Pokémon will only evolve when traded while carrying an item...

4 POKÉMON TRADING

Check the house just east of the Pokémon gym to find a person willing to trade you a Mokuhto for your Slokoth. If you're missing a Slokoth, you can pick one up in Petalburg Woods.

5 DEVON CORPORATION

The large structure in the northwest corner of town is Devon Corporation's main building. Once you perform a service for the Devon Researcher (just after you earn the first Badge), you'll be able to reach the upper floors.

24

6 RUSTBORO GYM

Ready to earn your first Badge? Roxanne, a Trainer of Rock-type Pokémon, will grant you one if you can defeat her. Bring along some Grass- or Water-type attacks to challenge her and her Trainers. Once you defeat Roxanne, you will earn the **Stone Badge**, and TM39, Rock Tomb. The Stone Badge will allow you to use Cut.

NOTE

You can skip both Trainers here and go right to Roxanne if you want, but you may as well get the experience and money. Plus, if you've brought along the right type Pokémon, you're not going to have any problems—and there's always a Pokémon Center right outside if you do have trouble.

NOTE

TM39, Rock Tomb is one of several techniques that has a dual effect—it deals Rock-type damage, while simultaneously attempting to lower your target's speed. These attacks can be useful, but remember that they tend to have lower power, accuracy, or chance of inflicting their special damage (in this case, speed reduction) than a more traditional attack. They make up for this by allowing you to pack the power of two moves into one command for your Pokémon.

7 ENEMY TEAM TROUBLES

After you leave the gym with your shiny new Badge, you'll spot a member of your enemy team running off. The Devon Researcher you saved in Petalburg Woods will recognize you, and ask you to recover the **Devon Goods** from the enemy team. To do so, you must head east to Route 116 and enter the tunnel there—this also conveniently leads to an encounter with Mr. Briney. When you're prepared, get going!

Once you've recovered the Goods, he'll take you up to the third floor of the Devon Corporation building, give you a **Great Ball**, and tell you to deliver the Goods to the Shipyard in Slateport. After this task is given, he will introduce you to the President, Mr. Stone. The President will give you another job—he wants you to stop off in Dewford Town and deliver a **Letter** to Steven. In exchange for your services, he gives you the Pokémon Navigotor, or Pakénov for short. If you speak with the Devon Researcher again before you leave, he mentions that you should also speak with Captain Stern in Slateport.

25

NOTE

The Pokémon Navigotor comes equipped with a map of Hoenn, as well as the ability to track Trainers you have encountered to see if they want to battle you again, and any Ribbons you may have collected for your Pokémon.

1 A JOURNEY SOUTH

Once you've finished your business in Rustboro and have received the Pokémon Navigotor, the Letter to Steven in Dewford, and the Devon Goods for the shipyard in Slateport, you're ready to go call in a favor from Mr. Briney. Travel back south through Route 104 and Petalburg Woods until you reach Route 104-south. Once there, head to the pier and enter Mr. Briney's cabin. He will agree to take you on an ocean voyage south.

MR. BRINEY: Ahoy!
We've hit land in DEWFORD.♥

NOTE

With the exception of a single stop at Dewford, this next trek will take you through the water Routes 104, 105, 106, 107, 108, and 109, dropping you off at the beach in 109 in one continuous journey. From there you'll head north toward the next city, Slateport. Much later, when you get Surf (after the fifth Gym, from your dad in Petalburg), you can return to 104 and take the trip on your own to gain experience and capture Pokémon. For now, enjoy the ride, and don't worry about anything you miss. You can come back later—you're not ready for the encounters in this area yet anyway.

Talk to a man in the southeast part of town to receive the **Old Rod**, the first (and lowest quality) of the various fishing poles you can acquire. You can fish at any body of water, but don't expect to pull up much more than a Magikarp with the Old Rod!

3 SILLINESS

If you feel like educating one of the natives about what's cool and what's not, talk to the man just south of Dewford Hall (above the Pokémon Center). You can use the same phrase selector from your Pokémon Profile. Of course, you don't have to make a phrase that makes any sense at all.

4 DEWFORD GYM

The inside of the Dewford Gym, home to Fighting-type Pokémon, is pitch black. Unfortunately, you can't use HM05 Flash just yet, even if you had it. You can stumble around in the dark and beat up on some of the Trainers, though. Each one you defeat will brighten the area up a bit. For Brawly, the Gym Leader, you can use a Flying-type Pokémon to inflict some heavy damage on his Fighting Pokémon if you're having problems with whatever other Pokémon you brought along. Don't use Normal types, though, as the man at the entrance warns, or you'll take quite a bit of extra damage.

NOTE

You don't need to fight all of the Trainers here, but you might as well, since the experience and money rewards are decent.

NOTE

TM08, Bulk Up, is a nice move that raises Attack and Defense at the same time. Outside the dual attack + effect techniques, this is a pretty unique ability. Remember that your attack techniques must be regular types (instead of special types) to benefit from this, and you must be defending against regular types, not special types. If you Bulk Up and use a special attack or try to defend against a special attack, you won't be a very happy Trainer. Your opponent might be, though!

TRAINER 2: FISHERMAN ELLIOT

POKÉMON: Magikarp L11

Tentacool L8

Magikarp L11

REWARD: ¥440

NOTE

There's a bunch of Pokémon in the Granite Cave, so you may want to spend a little time here improving your collection and leveling up some of your Pokémon. You're beginning to transition to the mid-game, so you'll want to have a slightly more experienced team as you head for Slateport. In particular, look out for Aron—a dual Steel/Rock type. This is one tough Pokémon, and it has two more evolutions, guaranteeing decent stats if you give it some care and attention. You may also want to grab a Geodude, who will come in handy at the Electric Gym.

1 WHERE'S STEVEN?

Despite clearing out another gym and acquiring a shiny new Badge, you still haven't found Steven. Head north from Dewford to Route 106, and enter the Granite Cave, located west down the beach just a short ways. Inside, a man will hand you Flash, a new HM that will let you see in dark areas.

2 FINDING STEVEN

Now that you have the Knuckle Badge and **HM05, Flash**, you can teach it to a Pokémon (just pick one you weren't planning on using if you don't want to waste a spot on one of your regular team members) and explore the Granite Cave. Head west from the entrance and go down the stairs to enter the deeper, darker parts of the cave. Use Flash, and go slightly east, then south to pick up a **Poké Ball**. Next, head east again to another ladder and climb down. Go all the way west, then north up the steps, and finally east until you spot a small rock—an **Everstone**. Pick it up, then continue all the way east and go up the ladder. You'll wind up one floor above the ground, beside another ladder. Climb it, and from where you end up (back on the first floor), it's a short trip to the southwest to find Steven.

**NOTE**

There's a sandy waterfall slide midway through the first dark area on the north side of the passage. You can't climb it just yet, but remember it for later when you have a Bike!

NOTE

The Everstone is a convenience item that prevents Pokémon from evolving when it's equipped. This is nice when you're dealing with a Pokémon that will learn only certain moves in a less evolved form. You can avoid the hassle of having to prevent their evolution continuously by simply equipping the Everstone until the Pokémon has learned the moves you want, then remove it to allow evolution. Consider it a useful Trainer's tool.

3 ABOUT TIME!

Now that you've finally tracked down this elusive fellow and delivered the letter, Steven rewards you for your efforts with **TM47**, Steel Wing. Your task is complete, so return to Dewford, talk to Mr. Briney, and he'll complete your trip to the beach at Route 109.

Obtained the TM47.

4 BIKE PASSAGE

Come back to this cove with the Mach Bike, and you can coast up the sandy slope that barred your passage before. Above, you'll find a few ladders that will lead you to a **Repel** and a **Rare Candy**.

1 WELCOME TO SLATEPORT

Your enemy team has a strong presence here, but you've got a job to do. You must deliver the Devon Goods to Captain Stern. Talk to Dock at the shipyard, then head to the Oceanic Museum, just above his shipyard on the east side of town. There's a ¥50 fee to enter. If you talk to the first enemy team member you spot inside, he'll give you **TM46, Thief** (appropriate, don't you think?). After you spend a few moments chatting with the suspicious members of your enemy team, head upstairs to deliver the Devon Goods to Captain Stern. As soon as you do this, your enemy team will interfere, and you'll have a pair of fights on your hands. Once you defeat the Grunts, a bigwig from your enemy team shows up, threatens you a bit, then wonders off with goons in tow. Nothing to worry yourself about for now, though—Captain Stern will depart for his undersea expedition, so you can now go about exploring the city.

NOTE

TM46, Thief, is a nifty move, but hardly an essential one. It does, however, have a Dark attribute, which can be handy, and makes for an amusing (though not particularly effective) tool in multiplayer. Theft in link battles is not permanent, just for the duration of the fight.

2 SHOPPING OPPORTUNITIES

NOTE

There are several shops in the market. Look around a bit in the marketplace to find the item you want. One of the vendors will only sell to you once you've found the TM containing Secret Power...

NOTE

The woman next to the man selling vitamins for your Pokémon will reward your Pokémon with an **Effort Ribbon** if your Pokémon likes you enough.

There's quite a bit of shopping to be done in town. If you check the southwest area of the city, you'll find a multitude of stores. Hope you brought some cash!

POKÉMON FAN CLUB

Stop by the building just above the marketplace to meet some true Pokémon fanatics, including a TV reporter who will interview you about your most liked Pokémon. If one of your Pokémon really likes you, then the woman at the top of the room will give you the **Soothe Bell** when you speak with her. This is a held item that will improve your Pokémon's disposition toward you.

38

4

NAME RATER

The house just above the fan club contains the elderly Pokémon, Name Rater. If he likes one of your Pokémon's names, he'll let you rename any Pokémon you have with you.

5

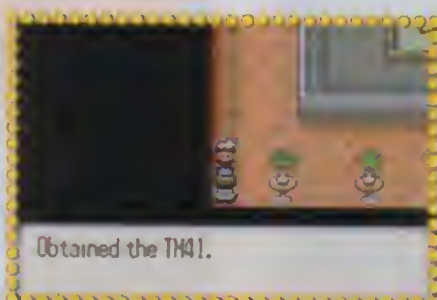

S.S. TIDAL FERRY

While it isn't active yet, the building at the top-right will eventually harbor the S.S. Tidal, a ship that will take you to the east of Hoenn.

6 HYPER POKÉMON CONTEST

If you speak with one of the people just outside the northwest building, they'll mention something about Pokéblocks that can be made from Berries and fed to your Pokémon. They are created using a Berry Blender. . . And why would you need to groom and feed your Pokémon? Why, for the Pokémon Contest, of course! Enter the northwest building to take a look. A girl inside will give you the **Pokéblock Case**, which will allow you to store Pokéblocks created at the Berry Blenders inside. Be sure to bring along plenty of Berries!

39

NOTE

You can't compete in Hyper Rank Pokémon Contests yet—first you've got to work your way up. The Normal Rank Pokémon Contests are held in Verdanturf Town, which you will be able to reach quite soon if you're curious.

There is one useful thing you can do here, however. Enter the Contest hall itself and talk to a man in the lower-left corner. He'll give you **TM41**, Torment. Torment prevents the Pokémon you hit with it from using the same move twice in a row. This is somewhat useful when you've got a damaging status ailment on it and you think you can guess which attack will be coming up.

There's a house just northwest of the Cyclor's building that has eight floors and quite a few puzzles. Check the optional areas section for more information on this puzzling building. For now, don't worry about it. You need Strength to fully explore it, and that's something you don't have just yet.

3 DETOUR TO ROUTE 103-EAST

You can head west of the Trick House to reach Route 103-east and fight a few Trainers there, but it's not necessary. Do so only if you want some more experience and cash. There's also a pair of trees that can be Cut, allowing you access to a **Guard Spec.**, four **Cheri Berries**, and two **Leppa Berries**, along with three plots of Loamy Soil. You'll hit some water that you can't get across yet. Later when you have Surf, you can use this as a shortcut between 103-east and 103-west, which will allow you to go quickly from Route 110 to Oldale, conveniently tying the lands together.

1 AROUND TOWN—ROCK SMASH AND RYDEL'S BIKES

Obtained the HM06.

There are lots of goodies here for you, including a new HM, another Badge, and a Bike! First, enter the house in the southeast corner to receive **HM06**, Rock Smash. After you defeat the Gym Leader here, you'll be able to use it to break the large rocks that block your path. Next, head to the house in the upper-right, and you'll receive the Bike of your choice! You can take either the **Mach Bike**, which allows you to ride around very quickly, or the **Acro Bike**, which enables you to leap over small obstacles, but you won't move quite as fast. For now, take the Mach Bike. You can return at any time and exchange it for the Acro Bike (say, much later when you have Fly), and then go and explore all the places you were unable to reach without it. Finally, check behind the fence in the southeast corner of town to get an X Speed.

2 RECORD EXCHANGE

Stop by the Pokémon Center and talk to the man in the upper-left corner. He'll tell you tales of legendary Trainers—sort of. If you've achieved anything interesting, he'll ask you about it, then record it. Not very neat by itself, but if you go upstairs, you'll find that the Record Center is open (third booth on the right). This place allows you to exchange records with other human Trainers by using your Game Boy® Advanced Game Link® cable. If you do so, the man will know of their achievements, as well, so you can compare accomplishments!

3 WALLY RETURNS

Wally has been busy while you've been off adventuring, and he's shown up at the Gym here in town with his favored Pokémon, Ralts. He wants to prove to his uncle that he can battle, so he challenges you to a duel. After you beat him, he'll realize he's not ready and returns to Verdanturf. Once Wally leaves, you can enter the gym anytime you wish.

If you bike back down to the Pokémon Mart, pick up the mail, and return, then she'll hand over the **Coin Case**, and you can play games in the Game Corner. Also, talk to the woman in the northwest corner of the Game Corner, and she'll give you a **Mudkip Doll** for free!

5 MAUVILLE CITY GYM

Time to earn your third Bodge! This Gym has Electric-type Pokémon, so bring along your Ground or Rock Pokémon for an easy victory. You've got to flip a few switches on the ground to move around the electrical barriers, but nothing too complicated. Defeat the Trainers for practice, return to the Pokémon Center if you need to rest, then go for the Gym Leader. Once you've acquired the **Dynamo Badge**, it's time to leave town. Head north for Route 111.

Ruby received the DYNAMO BADGE from WATTSON.

46

NOTE

You don't have to go north here—while you can't make any progress east on Route 118, you could go left to Route 117 and all the way to Verdanturf Town to visit Wally, as well as clearing out the racks in Rusturf Tunnel with Rock Smash. However, going north to Route 111 will eventually wrap back around the northwest of Hoenn and return to Mauville through Route 117, so it's up to you. This guide assumes you'll head north, but if you do go west first, don't worry about messing anything up. Just expect to have the areas cleared out when you came through again.

Just up the path and to the left, there's a small house that holds the Winstrote Family Pokémon team. They'll happily challenge you to four consecutive Pokémon battles. Give it a shot! If you can defeat them all, you'll acquire the **Macho Brace**, a Pokémon item that increases Growth Rate, but also lowers Speed. After you're done with the family, return to the trail and continue northward.

NOTE

Enter their house and check out their television after the battles—there might be a broadcast about you and your Pokémon from the Pokémon Fan Club! Yes, it is possible to see reports on yourself. Any time you see a television in someone's house, take a look. It doesn't help you in any way, but it is nice to enjoy a little fame.

BLOCKED PASSAGE

Route 112 is a small area at the base of Mount Chimney to the west. It serves as a hub for transport between several areas. Right now, the only place you can go is into a cave entrance leading to the Fiery Path. The Cable Car up to Mt. Chimney is blocked by members of your enemy team, and it's impossible to go up the steep slope to the west, so onward to the Fiery Path you go! The entrance is just to the west of the Cable Car.

1 IN AND OUT

A quick passage through this cove from south to north will place you at the backside of Route 112. There's a little bit more to this cove than you can explore right now—you need Strength to push aside several giant boulders to access the western port of the cove. Don't worry about that right now, though; just go north and exit to the back of Route 112.

2 WESTERN HALF

Once you've acquired Strength, come back here and you can pick up **TM06, Toxic**, and a **Fire Stone**.

NOTE

Toxic is a mean Poison attack that inflicts increasing damage every round that it stays on a Pokémon. Useful for whittling down Pokémon that have a lot of HP, particularly if you can lock it up with some other abilities that prevent your target from switching Pokémon or retaliating while Toxic does its work.

1 SECRET BASE!

Obtained the TM43.

You'll find a boy standing in front of a large tree just north of the first Trainer you face. He'll hand over **TM43, Secret Power**. You can use this TM on large trees and cracks in rock walls to create your own Secret Base, anywhere you want! This TM will also allow you to shop at the Secret Power shop all the way back in Slateport City. After you equip the TM, spend some time looking around the map before you finally decide where you want to place your new home. You can decorate it with the various Dolls and furniture that you purchase at stores. These items are usually expensive, so you'll probably want to wait until much later in the game before you go on a spending spree.

2 BERRY BLOSSOM

There's a big patch of Loomy Soil at the northern tip of this area, four spots to be exact. This area is loaded with six **Razz Berries** and four **Oran Berries**. If you speak with the girl standing near the Berry Trees, she'll give you another **Razz Berry**.

Obtained the RAZZ BERRY.

3 UP ON A RIDGE

If you've come here on the Mochi Bike, you can reach the upper ledge in the northeast corner and face a Trainer up there. You'll also find three indents in the rock wall, any of which could be turned into your Secret Base by using Secret Power. Take a look!

1 WEST TO FALLARBOR TOWN

There's not a whole lot to see along this Route, but it is curiously covered in ash—from the nearby volcanic activity. Truck your way across, battling as you go. The little piles of ash that look like red lumps conceal Ninja Trainers. Watch out for their Koffing Pokémon—they like to use Self Destruct. A little backtracking will also net you a Super Repel and a Max Ether.

2 ANOTHER DOUBLE FIGHT

About halfway through Route 113, you'll find a pair of twins spoiling for a team fight. Grant their wish to get some more practice!

3 GLASS WORKSHOP

All the ash scattered over the grass would seem like nothing more than a way of getting dirty, but if you stop by the Glass Workshop, the man inside will gift you with a Soot Sack. You can use this to gather Volcanic Ash as you walk around in the grass. The man also says he'll reward you if you return with it filled up. You might want to invest in some Repel items if you're going to do some ash collecting, though, because the encounter rate along Route 113 is pretty high.

NOTE

If you gather up enough ash for the man in the Glass Workshop, he'll let you choose from a variety of colored Flutes—Blue, Yellow, Red, White, or Black. You can also pick up either a Pretty Chair or a Pretty Desk—furnishings for your Secret Base! Check out our Pokémon Extras chapter for a complete list of Flute powers.

1 TAKE A BREAK

Finally, another town! You can rest up at the Pokémon Center, and go shopping in the Pokémon Mart. Inside the Pokémon Center, you'll meet Lonette—creator of the Pokémon Storage System that you've been using of the PCs in various Pokémon Centers. She invites you to visit her home on Route 114.

If you could, please visit me at home. My house is on ROUTE 114.

2 SUPER POKÉMON CONTEST

Yes, you still need to first go to Verdanturf Town to register for the Normal Rank before you can compete here. This town is pretty isolated, but once you have access to Fly, you can get up here quickly to compete whenever you want.

FOSSIL MANIAC

You'll find the Fossil Maniac's house just inside Route 114. Enter and talk to the boy by the hole in the wall. He'll tell you his older brother is the monioc, and then give you **TM28**, Dig. The monioc is in a cave inside the hole, but he won't give you any fossils. He will, however, tell you that there might be some fossils in the desert in Route 111—there are, but you can't get at them just yet, so don't worry about it.

NOTE

Dig is a nifty Ground move that will hide your Pokémon for a turn, then hit the opposing Pokémon. It's also handy out of battle for quickly exiting interior areas.

2

FREE TM

There's an old man and his Pokémon just down the road from the Fossil Maniac's house. Talk to him, and he'll give you **TM05**, Roar, which can be used to scare away wild Pokémon.

3 DOUBLE TROUBLE

There are several Trainers on this road, so be on the lookout. Your next destination is Meteor Falls, a cove in the southern part of this Route. To get there, you must pass through many of the aforementioned Trainers, including a pair of twins who are waiting for you midway down, just before you reach the rocky terrain.

5 SMASHING AWAY

Destroy the rock at the top of the mountain steps and pick up a Protein as your reward.

59

6 UP TO METEOR FALLS

Head all the way south and then up the mountain. You'll work your way toward the entrance to Meteor Falls. There are plenty of Trainers along the way—some are actually pretty tough. Your team should either have one or two strong Pokémon at this point, or at least a slightly lower level but more diversified set of Pokémon.

7 WET WORKS

Return to this location later in the game with Surf and Waterfall. You'll be able to use Waterfall in the northwest corner for a Rare Candy, and then walk behind Lonette's House and over to the Berry Trees in the southeast to collect six Persim Berries.

WALK-THROUGH

NOTE

Call-outs A-G on these maps refer to corresponding tunnel connections in this area.

1 ENEMY TEAM ENCOUNTER

It may not come as a complete surprise that you cannot fully explore this cave until you have both Surf and Waterfall. For now, you just have to deal with your enemy team, and then exit out to Route 115. Go up to get a **Full Heal**, then head west across the bridge where you will be jumped by members of your enemy team. They will then, in turn, be jumped by your friendly team (Mogmo in Sapphire, Aquo in Ruby), and get run off. Either Archie (in Ruby) or Moxie (in Sapphire) will then greet you. They'll set off in pursuit of your enemy team, who left for Mt. Chimney. You can actually return via Route 114 all the way to Route 112, but if you continue, you can go back via Verdanturf and Route 117.

62

After this occurs, go down the steps and talk to Professor Cozmo. He mentions that he studies Meteorites in Fossilopolis Town (remember, your enemy team just ran off with a Meteorite), and he had guided your enemy team here to Meteor Falls to dig up Meteorites. Of course, they tricked him and ran off with the celestine rock. You must eventually catch up with them, but for now, you can go up to the northwest to pick up a **Moon Stone**, and then exit to the south to reach Route 115.

2 THE REST OF THE CAVE

Once you return with Surf and Waterfall, there's plenty to dig up from this area. Search around for **TM23**, **Iron Tail**, **PP Up**, and **TM02**, **Dragon Claw**. You'll also encounter one Trainer, and a team battle.

NOTE

Iron Tail and Dragon Claw are both rare attacks—one Steel, one Dragon. Keep them around for a favored Pokémon.

Just outside the cave exit is a small fenced-off area that you can access by using Rock Crush. Pick up the goodies here, including a **Great Ball** and six **Bluk Berries**, then hit the beach for a **Super Potion** before heading south and east to Rusturf Tunnel.

2 NORTHERN AREA

Once you have Surf, return here and explore the northern half of the Route. Be sure to bring along Rock Smash and your Moch Bike, as well. You'll find a pair of Trainers, and a few items, including six **Kelpsy Berries**, **TM01**, **Focus Punch**, and an **Iron**.

Help them out by breaking through, and they'll reward you with **HM04** Strength! You can't use it just yet, but you will be able to soon.

2 THE REST OF ROUTE 116

Now that you've broken through, check the east side of Rusturf Tunnel for a **Max Ether**. A little further south, you'll find another Trainer waiting for you. Past him, you can reach two exits, the closest one to Verdanturf Town, and the more distant one to the east port of Route 116. Follow the second and explore for an **HP Up**, and a man who has lost his glasses. Now you can return and

go through the other exit to Verdanturf.

NOTE

Search the ground just a few spaces left of the man who says his glasses are missing to find the **Blackglasses**, a Pokémon held item that slightly increases the power of Dark-type moves.

Whichever enemy team grabbed the Meteorites is the same one that's going to cause trouble here. You need to stop them. Head to the northwest corner, where you'll face enemy team members before you can confront their boss (Archie or Moxie, depending on which color you're playing). After the final battle, you'll be thanked by the leader of the opposing team (Aqua in Ruby, Magma in Sapphire), and you can recover the **Meteorite** from the machine. NOTE

Remember, herbs are pretty effective, but your Pokémon won't be happy with you if you feed them nasty bitter-tasting herbs... You'll have to decide if the benefits in battle are worth making your Pokémon eat something you wouldn't even consider tasting.

4 LAVARIDGE GYM

Ready to earn your fourth Bodge? Head inside and bring some Water moves along to douse the flames within. There's a series of holes here that you must drop through to reach the Gym Leader. The lower level has water jets that will propel you back up to the main floor. The main floor itself is a series of small rooms, each housing a Trainer, with the final one holding Flannery herself. Work your way through and defeat her to earn your fourth Bodge (which will let you use HM04 Strength), TM50 Overheat, and after you leave the gym, the Go-Goggles. How? Your rival will stop by to congratulate you, and suggest that you go visit your father in Petalburg Gym to challenge him. Quite a good idea actually, and that's exactly what you should do next.

NOTE

There are a lot of goodies to acquire here, but none more important than the Go-Goggles. These will allow you to safely check out the desert in Route 111... Well, fairly safely anyhow—the raging sandstorm there WILL affect your Pokémon in battle, so bring along tough Pokémon (Rock, Steel, Ground) who can weather the storm before you go exploring.

1 IN THE GRASS

There's a huge patch of tall grass in the southern part of this Route. This area is filled with Trainers, as well as a few goodies, including a **Super Repel** and a **Hyper Potion**. You'll also discover two **Sitrus Berries** and two **Leppa Berries** just to the north.

2 SURFING

Surf across the water just north of the grass to find the seventh Trainer, as well as a **Zinc**.

3 TO THE WEATHER INSTITUTE

The Weather Institute is a fair distance up this lengthy Route, on the west side of the river. Make your way there, fighting the Trainers along the way to work out your Pokémon team. You should pick up a **Hyper Potion** and an **Elixir** on the way.

4 EAST TO FORTREE CITY

Remove the meddling enemy team from the Weather Institute to clear your path across the bridge and open access to the rest of Route 119. Cross the bridge and Surf south down the river to find a **Leaf Stone**, then return and continue on your way. Be sure to check just northwest of the path before Fortree to find six **Pomeg Berries**.

5 RIVAL BATTLE

Obtained the HM02.

Just across the bridge and up the steps, you'll encounter your rival, Prof. Birch's kid. Again, the Pokémon you face will be even higher level, so hopefully your team is ready. Win the duel and you'll receive **HM02, Fly!** Unfortunately, you can't use it until you get your sixth Badge.

You're so cute, you're disgusting!

1 FIFTH GYM!

You're probably itching to use Fly, so rest up in this nifty tree city, then hit the Gym. What's this? You can't get inside... First you're going to have to go east onto Route 120. Acquire the Devan Scope there, then you can return and enter this Gym. Coincidentally, the Pokéman here are all the Flying type. Bring along some Electric to zap them, Rock to bosh them, or Ice to freeze them.

NOTE

This Gym isn't as tricky as the fourth—you just have to go through a few rotating bars to reach the Trainers and eventually the Gym Leader.

NOTE

Defeating Winona will earn you the **Feather Badge**, which means you can now use Fly freely! This will make travel around Hoenn much faster, and since you have Surf as well, you're only lacking two more abilities (Waterfall and Dive) to be able to travel freely anywhere you want. You'll earn those soon enough... You'll also receive **TM40**, Aerial Ace, which is a supremely fast and accurate Flying attack.

2 AROUND TOWN

There's a kid in the northwest building that will trade his Skitty for a Pikachu if you have one handy. An old woman in the house just to the right of his will give you a simple test—you must guess (three times) which of her hands is holding a coin. Don't worry if you miss—she keeps repeating the same pattern, so you'll eventually figure it out. Once you do, she'll reward you with **TM10**, Hidden Power.

NOTE

Hidden Power is interesting. The type of the move is determined by the Pokémon you teach it to—there's no way to know what type it will be until you try it out. Save your game and test it on a couple of your favorite Pokémon that have space free for a new move. You just might get a type of attack that would otherwise be impossible to learn.

3 FURNITURE SHOPPING

There's a nice furniture shop in the southeast corner of town. The stuff is expensive, but keep it in mind for when you want to decorate your Secret Base.

2 WHAT'S IN MY WAY?

If you spotted the indentation in the wall just southeast of the first Troiner, and the item setting there (a **Nest Ball**), then you probably tried to go down the steps to pick it up—only to be blocked by the same mysterious force that stopped you from reaching the Gym in Fortree. What's going on here? Continue along the trail and you'll find out soon enough.

3 STEVEN'S INSTRUCTIONS

Midway across the bridge, you'll encounter Steven again. The path ahead is blocked by the same force that was blocking you at the Gym and at the item just above the bridge. What is it? Steven will use a **Devon Scope** and reveal a **Kecleon**, using its chameleon powers! Defeat it in battle and Steven will give you the scope. Now you can return and earn your sixth Badge, and the ability to Fly!

4 THE LONG WALK SOUTH

There's a host of Trainers on the way to Route 121, but it's worth it to take the time to defeat them all. You're going to be busy dealing with your enemy team again soon, so the experience and cash will be helpful. On the way, you'll also find a bundle of Berries: six **Aspear Berries**, six **Pecha Berries**, three **Razz Berries**, three **Nanab Berries**, three **Pinap Berries**, three **Wepear Berries**, and a few items; a **Nugget**, a **Hyper Potion**, and a **Full Heal** (if you Surf across the small lake in the southwest).

5 WIKI BERRY

There's a fair number of Berries to be harvested here (two **Chesto Berries**, two **Rawst Berries**, two **Aspear Berries**, two **Persim Berries**, six **Nanab Berries**), as well as some items to be picked up (**Carbos**, and behind the cuttable bush in the northeastern corner, a **Nugget** hidden from view). Grab them all before you head south for Route 122.

2 SAFARI ZONE!

Yes, it's back... an entire new Safari for you to hunt Pokémon in. Check the optional areas section for more information on this Pokémon expedition, and take a break from your mission if you're in the mood.

4 ENEMY TEAM TROUBLES

Your enemy team is up to no good again. You'll find them just in front of the dock leading south to Route 122. They'll mention that they're heading off to Mt. Pyre, which just happens to be smack in the middle of Route 122! Finish exploring this Route, then head south after them.

1 AFTER THEM!

Your enemy team is waiting for you atop Mt. Pyre, and you need to work your way there. The entire mountain is a peaceful place, a resting haven for Pokémon. You'll need to get past some Trainers on your way up the mountain, though. There are two exits from the entry area—one to the north and one to the west. The western Route leads out to the mountain itself, and the northern Route leads to the inner part of Mt. Pyre. Go west first to pursue your enemy team, but not before you talk to the old woman in the northeast corner of the room—she'll give you the **Cleanse Tag**, a handy Pokémon held item that reduces the wild Pokémon encounter rate.

2 LOWER MOUNTAIN

Work your way north up the mountain, grabbing **TM48**, **Skill Swap**, and a **Max Potion** on the way.

NOTE

TM48, Skill Swap, is difficult to use effectively. It exchanges the moves used by both Pokémon in a battle.

3 UPPER MOUNTAIN

A bunch of enemy team gaans will attempt to bar your path. Defeat them all to foil their plans again. Unfortunately, their leader will get away with the item—the **Blue Orb** in Ruby, or the **Red Orb** in Sapphire—that they were looking for before you can stop them. The old woman there will give you whichever one they don't take. Now you need to choose your enemy team to Slateport City!

You'll also acquire several items: **Ultra Ball**, **Super Repel**, **Lax Incense**, **Sea Incense** and **TM30**, Shadow Ball. Lax Incense is a held item that slightly reduces your foes' accuracy at all times. Sea Incense slightly increases the power of Water techniques when held.

TIP

To get the lost few items, drop down the hole on the very top floor, and you can pick them up on your way down. After the first drop, take the bottom-right drop to get the last item.

NOTE

TM30, Shadow Ball, is a rare Ghost attack, and a strong one at that. It will also occasionally lower Special Defense, causing other special attacks to hit even harder.

1 WESTWARD

After clearing the troublemakers out of Mt. Pyre, you must return to Slateport City, but you might as well clear this Route out on the way there. Hit the first Trainer behind the Cuttable bush to the east to pick up the **Rare Candy**, then turn west and speak with the girl just left of the first Berry Trees. She will give you **TM19**, Giga Drain, but only if you have a Grass-type Pokémon with you. On your way west, pick up on **Elixir** on the slopes, and a **Calcium** near the battam. Note that the path splits at Trainer 4, offering the choice to go down to Trainer 5, or up to get the Calcium. At the far west, check below the fence on the south side of the Route for an **Ultra Ball**.

2 BUNCHES OF BERRIES

There are 18 patches of Loamy Soil here, allowing you to seed a veritable forest of Berry Trees if you wish. Feel free to pick up the Berries while you're here: two **Rawst**, two **Sitrus**, two **Pecha**, four **Leppa**, eight **Qualot**, eight **Grepa**, and finally, eight **Pomeg**. Phew!

95

3 BERRY MASTER

Wondering why all those Berries are around here? Your answer is inside the Berry Master's hut, near the western side of this Route, and accessible from the east side of Route 118, as well. Speak with him to earn a pair of rare Berries each day, such as **Kelpsy** and **Tomato**. Speak with his wife and give her a positive phrase, and she'll give you a Berry in return.

Rest is a handy move that puts your Pokémon to sleep for two turns, but fully restores health and cures status ailments during that period. Don't use it on a weak or unsupported Pokémon, though—it's better to use after you've incapacitated your opponent's Pokémon, or once you've raised your own defenses first.

1 RECOVERING THE SUBMARINE

You need to penetrate your enemy team's base and recover Captain Stern's Submarine. No problem, right? Note that this base appears slightly different in Ruby or Sapphire, but the contents are exactly the same. Work your way toward the bottom and defeat your enemy team! There are a few items on the way, including a **Nest Ball** and a **Max Elixir**.

2 TRAPPED ITEMS

Beware if you wind up in the basement and make your way through the teleport pads to a small room; two of the 'items' on the ground are actually Electrades! Is it worth the time to get to the room? Absolutely! There's a **Master Ball** inside! There's also a **Nugget**, but that's a bit less exciting, don't you think? Keep that Poké Ball for later in the game when you're facing a one of a kind Pokémon that is extremely hard to catch.

102

3 SUBMARINE AWAY

Unfortunately, Captain Stern's Submarine will escape with your enemy team on board no matter how quickly you get to the bottom and defeat the Admin. You'll have to catch up with them later when you're both far out of sea...

1 ONWARD TO MOSSDEEP CITY

You cannot fully explore this area without Dive, so take on the Trainers if you like, then head east toward Mossdeep.

2 DIVING TREASURE HUNTER'S HOUSE

HUNTER'S HOUSE

Visit the Diving Hunter on an island just before Mossdeep, and talk with him about deep-sea treasure. If you manage to find any colored Shards in your travels, bring them to him, and he'll turn them into various Stones, which you can then use to evolve certain Pokémon.

1 AROUND TOWN

Your seventh Bodge is in sight. Check the house just west of the Pokémon Center to meet a boy who will investigate your Secret Base, if you've made one. Just outside that house, on the right, is a man who will give you a **King's Rock**, if you've got space in your bag. Check the house to the northwest of the center to find Steven's home! He'll give you

HM08, Dive, while you're visiting, but you must defeat the Gym Leader here to use it. If you drop by the house north of the center, you'll find a man who can tell what kind of Pokéblocks the front Pokémon in your party likes. Finally, check the southeast port of the island for a free **Net Ball**.

NOTE

After you've finished the game, make a return visit to Steven's home and pick up the Pokémon, Beldom.

2 SUPER FISHING

There's a hill in the east part of town. Check the northwestern house on the first tier up—a man inside will reward your inquisitiveness with the **Super Rod**!

3 MOSSDEEP SPACE CENTER

Yes, that giant building is a space research center! Go inside and take a look around. A man just inside will give you a **Sun Stone** just for talking to him. Sadly no, you don't get to hop in a rocket and visit space...

4

MOSSDEEP GYM

Okay, it looks intimidating, but don't worry. Take your time exploring the conveyor belts that run around this gym to battle the Trainers, and you'll eventually wind up facing the dual Gym Leaders, Liza & Tate. Yes, you'll be fighting a team battle for your seventh Badge!

There's a very specific underwater area you need to visit here—look on the western edge of the Route for a large ring of light water, then move just south of it and Dive! You'll find the entrance to the Seafloor Cavern. Note that if you Dive **INSIDE** the ring, you can search the empty center space underwater for a **Protein**, and Diving in the eastern deep water will net you a **Pearl**. Once you're inside by the submarine, use Dive again to rise up into the Seafloor Cavern.

To reach the fourth Trainer, Dive in the northwest side of the island, then work your way inside the barrier of racks above the ocean and surface. Oh, and one other thing... If you check just inside the curl underwater that leads up to the fourth Trainer, you can find a **Heart Scale** if you

look around carefully! Take it back to the move Trainer in Fallarbor. If you check beneath the water near the fourth Trainer, you can find a **Yellow Shard**, a **Pearl**, and an **Iron**. Finally, check underwater around the island itself, and the solitary Dive spot in the southwest of this Route to recover some more items: **Ultra Ball**, **Stardust**, a **Big Pearl**, and a **Blue Shard**.

2 DOWN TO SOOTOPOLIS

THE POKÉMON LEAGUE CHAMPION

Guess who? Yup, Steven is the Pokémon League Champion, and as a master of Steel-type Pokémon, he can be difficult to defeat. However, once you do manage to take him down, you have beaten the game! Congratulations! Take a look at the Optional Areas section of this guide for a bit of information on what changes after you finish the game for the first time, and then go have some fun! You can travel anywhere in Hoenn, and there's always Pokémon to catch and raise, Berries to grow, Pokéblocks to create, Contests to compete in, and much more!

1 WHAT IS THIS PLACE?

It's the Trick House, a multi-floor puzzle building, containing several Trainers, and a BUNCH of items, including a full set of Mail.

2 WHAT ELSE?

If you can make your way to the top, you'll earn yourself some goodies from the man who runs the building. Oh, one other thing—having problems getting in? Look under the table in the center of the room to find the man who will let you in. Make sure you bring along some Pokémon who can use Cut, Rock Smash, and Strength—you'll need them to clear the house out completely. You could go in a bit early, though, just to pick up a few items. You don't have to go all the way through in one run.

130

3 SCROLLS

On each floor you will find a scroll. You must find them before you move up to the next floor. Each one has the code to unlock the next door.

4 I'M DONE!

No, not quite. After you finish a floor, come back in and look again—it's different! Also, each floor you finish will earn you items from the Trick Master, the man who runs the place: **Rare Candy, Timer Ball, Hard Stone, Smoke Ball, TM12 Taunt, Magnet, PP Max, Red Tent.** Each floor you complete will award you one item. After you complete a floor, the Trick Master will vanish. Search the cushion where he was sitting to find a **Nugget**.

NOTE

Each time you finish a floor, the Trick Master will hide in a different place in the entry room. Just search carefully and you'll find him every time—the room isn't very big.

1 SANDSTORMS

Midway through Route 111 is a large and, initially, impenetrable desert. When you acquire the Go-Goggles, you'll be able to navigate through the blinding sandstorms and explore it. Work your way through the desert to fight off the Trainers, then pick up **TM37**, Sandstorm, and find a **Fossil**. What good is it? Not much, until you take it to a researcher on the second floor of the Devon Corporation building. He can turn it into a Pokémon for you! You get to pick only one of the two Fossils, though—either the Root Fossil or the Claw Fossil.

NOTE

Remember, unless your Pokémon is Steel, Ground, or Rock, you'll be taking damage from the Sandstorm in the desert. **TM37** will let you do this exact same thing in your battles. Put up a Sandstorm, use a defensive Pokémon, and watch your foe vanish in the sandy winds.

Inside, you can find several items: **Escape Rope**, **Ultra Ball**, **Parlyz Heal**, **Full Heal**, and a **Thunderstone**. Watch out for the Voltarbs, though—they look just like items! This is also a good place to catch Electric Pokémon.

2 DEACTIVATE THE GENERATOR

There's a malfunctioning generator at the back of New Mauville—step on the switch in front to shut it off, then return to Mauville and speak with Wattson again. He'll give you **TM24**, **Thunderbolt**, a very nice Electric ottock.

Anytime you have Surf, you can come back and cruise through all of these Routes. However, this is never actually necessary, thanks to Mr. Briney's convenient transport. If you want to hunt some more Pokémon and face a few more Trainers, you can do it yourself. Check the southwestern island for an Iron.

1 SHIPWRECK

There are plenty of goodies to be found on this ship, but you'll need Dive to explore it completely. Look around and you can find: **Harbor Mail, Dive Ball, Escape Rope, Revive.** Use Dive to also get **Water Stone, TM18, Rain Dance, Luxury Ball,** and **Scanner.**

Obtained the HARBOR MAIL.

TIP

If you go down to the Cobins that are only accessible with Dive, you'll initially find them locked. Look carefully when you enter each room. When you spot a sparkle on the ground, search there to find the keys you need to fully explore. The key to Room 2 is harder to find because you won't see the sparkle—after you enter Room 6, go left into Room 5 and search carefully. You'll find it about midway through the room.

NOTE

Rain Dance is a very nice Water technique that has several useful effects, including increasing the strength of Water attacks, raising the accuracy of Thunder to 100, and lowering the power of Fire moves.

2 TREASURE HUNTER DUO

You'll find a young couple in one of the cabins searching the ship for treasure—and they're up for a team Pokémon battle.

TEAM BATTLE: LOIS & HAL

3 STORAGE ROOM

Ruby found one TM13!

There's a room one floor down from the first area where you enter that cannot be opened without a key. Higher up on the ship you'll find someone investigating for Captain Stern—the Storage Key is in the room with him. Pick it up, and then return to get **TM13, Ice Beam.**

NOTE

Ice Pokémon and Ice attacks are quite rare, so TM13 is a valuable find. It's also one of the few effective attacks against Dragon Pokémon.

**SAPPHIRE
VERSION**

4 THE SCANNER

Once you recover the Scanner from the depths of the ship, take it back to Captain Stern in Slateport City. You can trade it to him for either a **Deepseatooth** or a **Deepseascale**.

SAFARI ZONE

ABILITIES REQUIRED: BOTH BIKES, SURF
ITEMS AVAILABLE: Max Revive, Calcium, TM22
NOTABLE POKÉMON: None

1 SAFARI!

138

The Safari Zone is a fun place to catch a lot of Pokémon that you can't find anywhere else in the game. You must also do it a bit differently. You are given 500 steps and 30 Safari Balls when you enter the area. You must then throw them to catch Pokémon.

You can throw a Pokéblock to help keep a

Pokémon in battle with you. To explore the area fully, you need the Mach Bike to go to the northwest corner, the Acro Bike to explore the northeast, Surf to grab a few items, and a Fishing Pole to catch some of the Pokémon. Check everywhere! And don't worry about running out of time, because you can always come back and try again.

2 POKÉBLOCK FEEDERS

There are some curious boxes near several large patches of grass—they're feeders for Pokémon! Put a Pokéblock inside to help attract Pokémon.

3 GOODIES

Just a few items here—a **Max Revive** and **Calcium**—but you'll also find **TM22**, **Solarbeam**.

NOTE

An extremely potent Grass technique, **TM22**, **Solarbeam** is so strong that it must charge for one turn before it unleashes its full power. Make sure your Pokémon can either survive a turn, or have your target asleep, frozen, or otherwise incapacitated before you use this move. Of course, if you hit with it, you probably won't have to worry about any counterattacks!

NOTE

What's going on here? It's the tide! If the tide is high, you'll be able to explore only the upper reaches of this large cavern complex. Come back in a few hours (real time!). When the tide is low, you can go all the way to the bottom to explore. You need to come during both tides to fully explore, though, as there are some items that you can only acquire during each cycle.

1 HIGH TIDE

You won't be able to explore much of the cave while the tide is high, but you can meet a strange old man who wants some Shoal Solts and Shoal Shells. If you bring them back, he'll give you the **Shell Bell**, a held item that will slowly restore a Pokémon's HP in battle! Search the northern cave to find four **Shoal Shells**, **Rare Candy**, and a **Big Pearl**.

2 LOW TIDE

You can now fully explore this seaside cavern, and find plenty of items: four **Shoal Salt**, **Ice Heal**, **Nevermeltice**, and at the very bottom **TM07**, Hail. **Nevermeltice** will slightly increase the power of your Pokémon's Ice techniques. The bottom icy area is also an excellent place to search for rare Ice-type Pokémon. Finally, a man just before the bottom will give you the **Focus Band**, an item that can sometimes save your Pokémon from fainting when held.

NOTE

TM07, Hail, is an Ice technique that creates an icy storm in the battle, damaging combatants with Ice-type damage. Think of it as the ice version of Sandstorm. Note that 'weather' techniques will overwrite each other—only the most recent will take effect.

POST-POKÉMON LEAGUE AREAS

THE SKY PILLAR

ABILITIES REQUIRED:	None
ITEMS AVAILABLE:	None
NOTABLE POKÉMON:	Rayquaza

1 TO THE TOWER

After you have defeated the Pokémon League, head east from Poffindlog Town onto Route 131, and check the northern edge as you go along. You'll eventually find a gap that will lead you to an island. Land on the island, then enter the small cove and run through to get onto the top of the island. You will find an immense tower here, the Sky Pillar!

2 INSIDE THE PILLAR

To reach the top, you'll need your Moch Bike, some patience, and a bit of skill. All you have to do is ride all the way to the top—easier said than done, since a mistake will send you down a floor. Keep at it, and eventually you'll reach the precipice.

3 ATOP THE PILLAR

And why go to all this effort? Because there is something waiting for you on the top of the Sky Pillar—the immense flying Pokémon, Rayquaza! Good luck. If you decided to save your Master Ball, this would be another good time to use it; otherwise, you'll need to throw a lot of Ultra Balls and hope you get lucky. Remember to save your game just before you get in the battle—you don't want to miss your chance to catch this one-of-a-kind Pokémon!

THE REGI

1 REGI?

Yup... ancient creatures, long and hidden, but you can find them. To do so, head to the southeast part of Route 134, and dive into the water. Within, you will find a cove. Walk to the top-center of the room and use Dig to break through. In the next room, you must do something strange: Put a Relicanth in front of your party, and a Woilord in the last spot. Walk to the top of the room and read the center script on the stone. You'll trigger an earthquake. You can Fish up a Woilmer to evolve in Route 122, and find a Relicanth outside Sootopolis in the underwater grass (rarely, but it is there). Now you've unlocked the three Regi!

NOTE

What is that script? It's Braille, a set of characters designed for the blind. Assuming you want to figure out this little puzzle yourself, you'll need to do some translation.

2 REGISTEEL

You can access a Volcano in the southwest region of Route 120. Enter it, then head toward the center of the room, use Fly, and say hello to Registeel.

3 REGIROCK

Fly to Lavaridge, bop down the mountain, and enter the desert. In the southern part of the desert, you'll find another mountain. Enter, walk up to the center tile at the top of the room, go three steps down and two steps right, and then use Strength to open the passage to Regirack.

4 REGICE

In Route 105, there's an island on the west side that has a mountain on it—go there, enter, and stand in front of the center tile on the north wall. Press the A Button and wait! Really, don't move at all. Be patient, and the entrance to Regice's room will open.

1 IT'S COMPLETE!

Finally, you can travel on the S.S. Tidal! This vessel can take you back and forth from Slateport City and Lilycave City, which is convenient. More interestingly, however, it can also drop you off at an entirely new destination, the Battle Tower!

2 ON THE SHIP

You can actually explore the ship a bit while you travel, take a look around to fight a few Trainers, and even find a few items, including **Leftovers** in the northwest part down in the storage area! **TM49**, Snatch, is given to you by a mon in one of the cabins.

NOTE

Leftovers is a very nice Pokémon held item that will heal your Pokémon each round of battle!

NOTE

Snatch is a fun move, stealing your opponent's technique for the round and using it against him!

BATTLE TOWER

TO BATTLE

Short of playing Pokémon with your friends, this is the toughest challenge you will face in the entire game. You can choose either a Level 50 or a Level 100 challenge. Pick three Pokémon, and then face seven Trainers in a row. Your winning streak will be recorded, and you will earn items for long streaks. Win 50 consecutive battles and you'll get a Silver Shield, and it will be noted on your Trainer Card! Pokémon Ribbons are awarded after 56 wins and you earn a Gold Shield for 100 wins. Good luck—you're going to need it. Oh, one other thing—no super Pokémon (Kyogre, Groudon, and Rayquaza) allowed here! You can use only Held items and you must use a different Held item on each Pokémon, so this is going to be a test of your Pokémon raising and fighting skills, not the strength of a few individual Pokémon.

LATIOS AND LATIAS

THAT NEWS REPORT...

Just after you finish the game, there's an interesting piece of news playing on the TV downstairs in your home. What is it about exactly? A certain, one-of-a-kind Pokémon is now loose in Hoenn, and it is very difficult to catch. It will show up randomly all over the land in patches of grass, and you've got just one chance to catch it. Don't plan on finding it right away, just spend some time playing as you normally would, and you'll eventually run across it now and again. What Pokémon is it? That depends on which game you're playing. For Ruby players, Latias is the one to catch; for Sapphire, Latias patrols the skies.

POKÉMON EXTRAS

There's a whole lot out there in the land of Hoenn, and this chapter has plenty of goodies for you to look over.

THE POKÉMON LIBRARY

This table provides a full listing of essential Pokémon information for your reference in combat. Anytime you're uncertain on a Pokémon's type, check here, then use our Combat Chart to select your best possible Pokémon and attacks.

25	IMPISH

BERRIES

Berries are extremely useful for their effects, both in and out of combat, as well as their ability to be made into Pokéblocks, which you can then feed to your Pokémon to train them for the Pokémon Contests. You can also use Pokéblocks in the Safari Zone to aid in the capture of rare Pokémon.

BRADY ACKNOWLEDGEMENTS

Special thanks to everyone at Nintendo, especially Amondo Bowes and Commy Budd for your continued support. Thanks also to Jock Smart and the entire NOA testing group—your time and expertise has helped make this guide great.

AUTHOR ACKNOWLEDGEMENTS

A special thanks to the dedicated staff at Brady, who made the immense task of creating the book you now hold in your hands possible. In particular, my editor Dovid Bortley and the designer Ann-Morie Deets deserve special mention for long hours hommering the monuscript into a great-looking guide. I must also thank my better half, Dophne, for keeping me sane, and my friends for still being my friends at the end of a guide project of this size.

And for you the player, enjoy yourself, there's a big world in that tiny cartridge!
